Now RAVE is a new term that the kids think that they own.

NOT!

What is a Rave?

"In simple terms, a rave is a social event, a phenomenon of modern youth culture. In most cases a rave is a dance party in which the participants experience a sense of community and elevated consciousness through the hearing of music and responding to the music through:

Free physical motion or dance....A positive change in mood.....
 Both spoken and unspoken interaction with other participants.

We call it psychedelic/disco!

OK..... so we have been doing that for years!

Anyway - our Rave party will feature the red, white and blue colors
 (American icon.....the Corvette) .

The room will be on the dark side so that we can display our
 "rave" lights and party on.

Flashing, glowing, blinking lights are the rage here, so if you
 have them, bring them! The more the better.

We will rave at our party
