NOTE: you MUST approach from the West (via University) because White Settlement has been severed from Henderson/199.

Celebrating "Drive Your Corvette to Work" day was definitely not my idea but, I believe it to be a good one. However, there are a lot of Corvette owners who are retired. The majority of Corvette owners are over 40. It was my idea to provide an opportunity for people who are no longer in the work force to be included in the celebration. I started this while I was serving as president and tried to make it socially "easy." No RSVP. No dress code. No drama.

Again, no commitment. Show up or not. The only real commitment is me. I'll be there unless I'm hospitalized.
