

Michael Hinojosa, Ed.D.
Superintendent of Schools

November 2, 2007

Dear Partner In Education,

Celestino Soto Elementary school located within the boundaries of Dallas and Cockrell Hill is a new school well into their second year. Our students and teachers work hard and come to school ready to learn! One of the aspects of the student's success is parental involvement. Along with the volunteer program, Soto Elementary has also started a Dad's Club, the first in the area. This group is comprised of a small but very dedicated group of gentlemen that have the unified vision of nurturing and supporting the family life of the students so they will in turn succeed in school.

On February 9, 2008 from 9:30-12:30 the Dad's Club will be sponsoring a Car Show during our health fair as a fundraiser. Slots will be available for individual car owners and for dealerships as well. It will be a morning filled with information and family activities for the community to enjoy. We would appreciate any help you can give us to make this event a success. True success in the students depends on the partnership among parents, school and community. Thank you in advance for your kind consideration.

Please feel free to call Virginia Greene at 972-502-5108 if you have any questions or concerns.

Sincerely,

Virginia Greene
Community Liaison
